Re: Reference for Contaminant Control, Inc.

To Whom It May Concern:

I have been in the environmental consulting business for over ten years acting as an Asbestos Project Designer, Inspector, Management Planner, and Air Monitor, (accredited in North Carolina and South Carolina); and as a Certified Indoor Environmental Consultant performing Indoor Air Quality Investigations and Project Management.

I have worked with Contaminant Control, Inc. (CCI) on numerous projects throughout the ten years and have always been impressed with their professionalism, response time when emergencies arise, their attention to detail on asbestos and mold projects, and their open communication.

I acted as Consulting Department Manager for my previous employer, AAA Environmental, before becoming Owner and acting President of Crossroads Environmental, LLC, and I have never had a client complaint in regards to projects that we have managed when CCI has been the Contractor performing the work.

I would highly recommend them based on the projects that we have worked with them on. Please call me if you have any questions or need additional information.

Sincerely,
